## Test Automation Engineer | Functional Test Planning | Playwright & Selenium

+91 8825935592 | rubanmani1901@gmail.com | Arani, Tamil Nadu | LinkedIn: [www.linkedin.com/in/ruban-kumar-r](https://www.linkedin.com/in/ruban-kumar-r)

### PROFESSIONAL SUMMARY

---

Test Automation Engineer with 4.5 years of experience applying quality processes, automation tools, and Functional Test Planning to transform testing products and solutions across Retail and Insurance domains. Experienced in running end-to-end quality engineering functions using Playwright with TypeScript, Selenium WebDriver with Java, API testing with Postman, and SQL-based data validation, with a strong focus on improving control, accuracy, and integrity throughout the testing lifecycle. Skilled in Functional, Regression, Smoke, and End-to-End testing, defect life cycle management using Jira, and Agile/Scrum delivery. Proven ability to work independently as an SME, mentor junior team members, and collaborate cross-functionally to identify automation opportunities.

### TECHNICAL SKILLS

---

Automation Tools: Playwright, Selenium WebDriver, Page Object Model (POM), Cross-Browser Testing

Languages: Java, TypeScript, JavaScript, SQL

Testing: Manual Testing, Automation Testing, API Testing (Postman), Functional Testing, Regression Testing, Smoke Testing, Integration Testing, End-to-End Testing, Defect Life Cycle Management

Process & Tools: Functional Test Planning, Agile & Scrum Methodology, STLC, SDLC, Quality Assurance Best Practices, CI/CD (exposure), Jira, Git & GitHub, Test Case Design

### PROFESSIONAL EXPERIENCE

---

**System Engineer (QA)** — Tata Consultancy Services (TCS)

*Dec 2021 – Present*

**Insurance Domain Application — Senior QA Engineer**

- Independently owned Functional Test Planning for insurance domain applications, designing test strategies and executing 100+ test cases per release across Functional, Regression, Smoke, Integration, API, and End-to-End cycles as an SME.
- Automated 40% of critical business scenarios using Playwright and Selenium WebDriver with Java and TypeScript, improving regression test coverage, release control, and accuracy.
- Performed API validation using Postman and backend data validation using SQL to strengthen data integrity throughout the testing lifecycle.
- Logged, tracked, and resolved 15-20 defects per sprint through full defect life cycle using Jira, supporting QA delivery across 80+ releases while mentoring junior team members on test planning and automation standards.
- Analysed automated test results and troubleshoot failures using Playwright's trace viewer and logs to isolate root causes and ensure high-quality deliverables.
- Collaborated with developers, business analysts, and stakeholders in Agile ceremonies (sprint planning, stand-ups, retrospectives) to identify automation opportunities and optimize testing workflows.
- Worked on-site in Saudi Arabia for the project go-live, engaging directly with client stakeholders and the delivery team to execute critical QA activities, validate production readiness, and ensure a smooth, on-time release under high-pressure timelines.

**Retail Domain Application (STIBO MDM) — QA Engineer**

- Executed Manual Testing of STIBO MDM retail workflows, validating product data management, business rules, and hierarchy management.
- Conducted Functional, Regression, Smoke, Integration, and End-to-End testing; prepared test cases and execution reports based on business requirements.
- Validated product enrichment, data synchronization, and import/export functionality; logged and tracked defects using Jira in an Agile environment.

### EDUCATION

---

Bachelor of Engineering (B.E.), Computer Science and Engineering, Thiruvalluvar College of Engineering and Technology, Anna University, 2021, CGPA: 7.56

### CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

---

Advanced Selenium Automation Frameworks — LinkedIn Learning

Java Masterclass — Udemy

### ACHIEVEMENTS

---

Best Team Award (WBA) for contribution to successful project delivery

Outstanding Performer (GOSI) for QA performance across release cycles

Recipient of the "Xcelerate Warrior" recognition for ownership of QA deliverables and cross-team commitment.
